Needle system #	29BL
Lubrication	Manual
Skip stitch function	1:1 - 2:1 true skip stitch
Warranty	Reliable™ 1 Year Warranty

DESCRIPTION

The MSK-755 industrial blindstitch sewing machine with skip-stitch function is easy to use and is ideal for garment manufacturer's, drapery workrooms and alteration shops.

Less vibration = better stitch quality. The solid frame construction on the MSK-755 (as compared to a frame drop type machine) ensures less vibration, and ultimately a better quality stitch than frame drop machines.

The skip stitch feature with 1:1 - 2:1 dial is essential for sewing lightweight fabric such as sheers.

The MSK-755 is also equipped with a dial to adjust the needle penetration from light to heavier weight material.

BEST USED FOR

Pants
Skirts
Dresses
Drapery

FEATURES

- True skip stitch function with chain-off finger* (*required for drapery sheers and other light work)
- Simple to use - easy to operate
- Adjustable stitch penetration for various types of fabric
- Adjustable thread tension
